ITALY'S LABOR WAR ON

PROBERS REFUSE TO CALL COX

Munsey Demands His Subpoena But Committee Declines

MOORE ENOUGH, IS ANSWER

Witnesses Tell of Raising G. O. P. Quota in Chicago

CHICAGO.—(By Associated Press)—Refusal to summon Governor Cox as a witness before the senate committee investigating campaign expenses was announced Saturday by Senator Kenyon, chairman. He gave out a telegram received from Frank A. Munsey, eastern publisher, demanding that the Democratic presidential nominee be subpoenaed.

Senator Kenyon's reply was to the effect that Edmond H. Moore had appeared before the committee as personal representative of the Ohio executive and the committee considered that sufficient.

Senator Kenyon said the telegram from Mr. Munsey was typical of hundreds received by him and other members of the committee and indicated that the public announcement of the Munsey message was made in the hope that it might serve as an answer to other telegrams and letters which might be in prospect.

CHICAGO CAMPAIGN

Frederick Courtenay Barber, of New York, testified that he was brought to Chicago to organize a seven day drive in this city for the \$500,000 which Harry M. Blair said was the Chicago quota. Mr. Barber said he had conducted about sixty similar campaigns for political, civic and philanthropic funds. He then described the method of organization, saying there were seven divisions and 45 teams of about a dozen men each and for the sub-divisions so that nearly 3,000 workers all told were provided for.

He said the "titular head" of the drive was Charles Piaz, chairman of the executive committee of twenty-five. He said there was a "quarantine list" of between 700 and 800 names, these prospects being all men who were considered capable of giving \$1,000 each.

"Did you ever hear \$70,000 mentioned as the amount to be raised in Chicago?" Senator Reed asked.

EDITOR IS CALLED

"Only gaudily, once or twice," said Mr. Barber, and he added that he did not recall who made the remark.

Senator Reed then asked if that amount had not been named in authorized statements sent from headquarters to Chicago newspapers. The witness said he had no definite knowledge of that circumstance.

Cleot Enix, assistant city editor of the Chicago Daily News, was then called to the stand. He said he had received an announcement from Republican headquarters naming \$700,000 as the Chicago quota and had used the information in a news story.

FINED FOR THEFT

Man Admits Taking Tires—Other Sentences Passed

John Sheary, 21, brakeman, Linn R. No. 9 was fined \$50 and given a 30 day sentence in the Toledo workhouse by Judge Emmett J. Jackson Saturday morning after pleading guilty to the theft of two automobile tires, valued at \$25. The tires were alleged to have been stolen from C. R. Boggs, 726 N. Main-st who made an affidavit against Sheary.

Jule Wise, 250 S Cole-st pleaded guilty to a charge of passing a street at Mahn and Wayne-sts while it was receiving and discharging passengers and was fined \$1.

Twenty-five dollars fine was imposed on J. R. Rupert, 36, laborer, Erie hotel, after he pleaded guilty to a charge of drunkenness.

1921 REUNION OF NORTH FAMILY AT FORT WAYNE

The next reunion of the North family will be in Fort Wayne next September, according to decision of the committee. H. C. North, Piqua, who presided at the 1920 reunion here Labor Day, was re-elected president.

Other officers elected were J. C. North, vice president, Lima, and Mrs. Stella Bowers, secretary, N. Manchester, Ind. A delightful picnic dinner was served and an informative program of speaking enjoyed.

Those who attended the reunion were Mr. and Mrs. W. O. Wilson, Roy lawn and family, Mrs. Peri, Long, Jacob Killens and family, Ralph O. North, Mrs. H. G. Pence and daughter, Calvin North and family, all of Columbia City, Ind.; Lula M. Teach, Lerna and Myrtle Teach, of Springfield; Mr. and Mrs. J. E. Bowers, Mary E. Bowers, all of North Manchester, Ind.; Mrs. E. J. Fowler and daughter, Dayton; Mrs. Elizabeth North, C. J. North, both of Urbana; Mrs. Ollie McCormack, Huntsville; Rebecca Means, Waynesfield; H. C. North, Piqua; L. Pullins and family, Fort Wayne; Mrs. L. O. North and family, Mr. and Mrs. J. C. North; Veva North, Mrs. T. M. North, Mr. and Mrs. A. C. North; Grace McCuller, H. E. North, Mr. and Mrs. Carl Meads and children, and Mr. and Mrs. Guy Meads and children, all of Lima.

GOV. COX VISITS WOUNDED SOLDIERS

Governor Cox with wounded soldiers at Polyclinic hospital, New York.

On his recent eastern trip, Governor Cox, Democratic nominee for the presidency, paid a visit to the wounded soldiers at Polyclinic hospital, New York city. He shook hands and had a cheery word for every soldier, after which he was photographed with two wounded Ohio boys, Edward Hall (left) and Cecil Smith, both of Columbus.

BRITISH OFFICIAL IS WARNED

Will Face Murder Trial, if MacSwiney Dies, He is Told

SIR HAMAR GETS NOTICE

To Be Tried by Sinn Fein Court, Message Says

LONDON.—(By United Press)—Sir Hamar Greenwood, chief secretary for Ireland, has received notice that in the event of the death of Lord Mayor MacSwiney, now on his thirtieth day of his hunger strike, he will be tried for murder by a Sinn Fein court.

Sinn Fein officials previously had declared informally that such action would be taken in connection with all British cabinet members, responsible for MacSwiney's imprisonment and that any resultant sentences of death would be carried out by Sinn Fein agents.

The latest reports from Brixton prison said the lord mayor was steadily growing weaker and that the partial paralysis of his arms and legs were extending. He was still conscious.

MACSWINEY PROSTRATE

LONDON.—Terence MacSwiney, lord mayor of Cork, was still conscious Saturday morning, after he passed a very bad night, and was in an extremely exhausted condition, according to a bulletin by the Irish Self-Determination League, following a report from Brixton prison, where MacSwiney is continuing the hunger strike he began on August 12. He was suffering severe pain in the back and legs and was complaining of dizziness, the bulletin stated.

The bulletin issued by the league Saturday afternoon said at 1:10 p.m. Mayor MacSwiney was virtually prostrate. He had not spoken Saturday all the morning, it was announced.

The three o'clock bulletin given out by the league said the mayor was much worse.

"He appears to have completely collapsed," the bulletin stated. "His mind is getting dull but he is still conscious."

WARNING ISSUED

Restaurant Proprietors Threatened With Prosecution

TOLEDO.—(By United Press)—Unless prices in Toledo restaurants are reduced to lower levels, the fair-to-fair price commission will start prosecutions immediately.

This was the statement made by Chairman C. W. Waggoner Saturday, and concurred in by the other members of the board, following a hearing on Friday afternoon, when managers of Toledo restaurants were cited before the board.

The commission found, as a result of the examination, that "the Toledo public is being dealt with unfairly by the restaurant owners, and their prices are unreasonable, excessive and unbalanced."

J. S. HALSTON DEAD

COLUMBUS.—Joseph S. Halston, president of the Halston Steel Co. Company, one of Columbus' largest industries, died this morning.

"EVEN SCALES" IS COX'S DOCTRINE

Points Way to Curb Radicalism in Western Speech

URGES EQUAL OPPORTUNITY

Opposition "Deals With Only Buy People," He Says

BELLINGHAM, Wash.—(By United Press)—"Government must never be at the mercy of an upper or lower mob," Governor James M. Cox declared here Saturday morning, in opening a day full of stump speeches along the western coast of Washington.

His address, it was apparent, was directed at so-called radical elements that have been creating disturbances in the northwest.

A sure way to prevent radicalism is to keep the government responsive to the will of the people, he claimed, but added in again attacking the "senatorial oligarchy," this is impossible with reactionaries in control.

NO RADICALISM CALL

Additional evidence back of Cox's charge that Republicans are seeking a huge corruption fund, was made public with the reading of a letter by Cox from H. F. Alexander, chairman of the Washington Republican finance committee. The letter said Washington had raised \$60,000 of its \$65,000 allotment.

Regarding radicalism, Cox continued, "I hold that in the United States there is no call for extreme radicalism. If government is fair, then there will be no special privilege and certainly no unfair advantage to any one. There will be neither exploitation of worker nor injustice to employer.

"Just as surely as the pendulum swings in the extreme right in favoritism and unfair privilege, there is certain to result a swing to the extreme left in radicalism with a smash."

GOVERNMENT PURPOSE

"It is the purpose in government to hold the scales of justice true, to give every person of every class and kind, equal opportunity to achieve and acquire happiness. In this way only will orderly processes of government command respect and obedience of all, and in this way only will the country be safeguarded from destruction on one hand or exploitation on the other."

Those who have taken command of the opposition party seem to have forgotten this and remember only that phase which deals with "buy the people."

Cox's voice has become husky from a cold caught making open air speeches. State committees had planned to average ten speeches daily, but the nominee has ordered this reduced.

Cox's schedule Saturday also calls for speeches at Seattle, Tacoma, Everett, and Mount Vernon.

G. O. P. BEFOGGING, DANIELS SAYS

Navy Secretary Hits League Opponents in Maine Speech

KITTERY, Maine.—(By Associated Press)—The Republican attitude toward the league of nations was described as a straddle and the party was accused of plastering with the greatest moral issue that ever confronted mankind, in an address by Secretary of the Navy Daniels at a political rally Saturday.

Secretary Daniels referred to the speech of Governor Coolidge at Portland as a dexterous attempt to extricate his party from its "selfish and parochial position" and said the burden of the governor's address was that America must mix with men and prosper and not isolate itself from the world.

"The first half of his speech," said Mr. Daniels, "was to declare for American participation in world affairs, and it was essentially sound. But by reason of the straddle policy of his party, Governor Coolidge had to repudiate his splendid recital of Americas duty to the world, as well as to us. And he made a lame and impotent conclusion by approving Harding's toothless Hague tribute and landing such reservations to the league as were put there to before the issue and enable Republican senators to scuttle without assuming responsibility for going back upon the noble issue for which American lads fought and died."

General Pershing and Harding said Saturday morning after a short stop in Chicago, General Pershing boarded the senator's train at Chicago, and during the trip thru Indiana and Ohio shared some of the applause which greeted the nominee.

Senator Harding was, on his way back to Washington after a short stop in Chicago. General Pershing said he left that solid path of duty, it is clear he was impelled to save reputation the now-you-see-it and now-don't attitude of the head of the ticket."

PERSHING AND HARDING PASS THRU LIMA ON WAY FROM CHICAGO TO MARION

General John J. Pershing, commander of the American Expeditionary Forces in France, passed thru Lima Thursday evening shortly after 6 o'clock, en route with Senator Harding and his party from Chicago to Marion. They passed thru here on the Erie train, due in Lima at 6:30 p.m. General Pershing boarded the senator's train at Chicago, and during the trip thru Indiana and Ohio shared some of the applause which greeted the nominee.

Senator Harding was, on his way back to Washington after a short stop in Chicago. General Pershing said he left that solid path of duty, it is clear he was impelled to save reputation the now-you-see-it and now-don't attitude of the head of the ticket."

LIMA CHAMBER NAMES DRIVE HEADS MONDAY

A chairman, vice-chairman and executive committee for the Lima chamber of commerce intensive membership drive will be selected at a meeting of the board of directors Monday, it was announced Saturday from the chamber's offices. Various subcommittees will be appointed at the same time.

"The Future Lima Chamber of Commerce" is the subject of an address to be given by Congressman Daniel A. Reed, in his address before the members of the chamber of commerce at the noonday forum luncheon next Thursday at the Lima house.

Rev. Herbert C. Carroll of the Kentucky Conference, and Rev. G. McCormick of the Western Ohio Conference, have been transferred to the Ohio Conference district, Bishop Anders announced.

J. S. HALSTON DEAD

COLUMBUS.—Joseph S. Halston, president of the Halston Steel Co. Company, one of Columbus' largest industries, died this morning.

Restaurant's Cash Taken, Robber Is Found In Flour

HE IS FINLAND'S JOHN F. KRAMER

JOHN F. KRAMER

NEW YORK—Crowds of suburban residents, rushing for last trains at Grand Central station early Saturday, scurried for cover during a pistol battle between Jacob Mendel, station restaurant proprietor, and three men who had knocked him down and taken his day's cash of \$2,500.

Two of the men, after their weapons had been emptied, were arrested and the third calmly left the station among the scores of police who were called. When the police followed a winding stairway leading down into a bakery shop, their flashlights revealed the fugitive, stuck in a barrel of flour, clutching the bag of money.

OHIOAN KILLED IN GUN BATTLE

Elyria Man is Shot to Death by Sheriff

FIGHT STARTS AT LAPORTE

Officers Fire to Save Selves When Arrest is Resisted

ELYRIA.—(By Associated Press)—George Kochis of this place died at six o'clock Saturday morning as the result of a desperate gun battle Friday evening in which Sheriff N. D. Backus shot to kill. The shooting occurred at Laporte, five miles southeast of here.

Prior to the arrival of the sheriff and two deputies, James Farrell, prominent Elyrian, narrowly escaped death at the hands of the desperate Kochis, in a fight which started in a Laporte house which is said to have a tainted reputation.

Prior to the arrival of the sheriff and two deputies, James Farrell, prominent Elyrian, narrowly escaped death at the hands of the desperate Kochis, in a fight which started in a Laporte house which is said to have a tainted reputation.

The occupants of the house fled and notified authorities. The officers chased Kochis down into a ravine behind the house, where occurred the gun battle in which Kochis was finally mortally wounded.

In the exchange of shots one of the deputies escaped miraculously and it is believed that it was only thru shooting to kill that Sheriff Backus saved his own life as well as that of the deputy.

"AMERICA DUPED," HARDING SAYS

"Shocking Discrepancies" in Versailles Treaty, He Declares

MARION.—(By United Press)—Suggestion that America has been duped by "shocking discrepancies" in the French and English texts of articles in the Versailles treaty purporting to safeguard the Monroe Doctrine, was made Saturday by M. F. Dawson to the grade of captain.

He demanded that those advocating acceptance of the league covenant bring forth an explanation.

PROBLEMS OF WORLD

This new angle on the treaty issue was sprung in a double-barreled broadcast on the Wilson policies made by Harding Saturday, speaking to three delegations, mostly business men from Chicago, Michigan and Indiana.

The other half of Harding's speech unsparingly flogged the "ineffective medaling" policy of the Democratic administration toward business. As to government waste, eight years of Democratic administration, have increased rather than reduced inefficiency and we have become "the ineffective prodigies of the world," he continued. He advocated rebuilding of our economic life, "so that our prosperity shall not be the prosperity of profiteers nor of special privilege."

"We must do it so that abroad we are known not as a nation strutting under a plume of fine words, but as one that knits friendly and peaceful relations by the shrift of honorable deeds," Harding added.

QUOTE FROM TREATY

Harding quoted from the French text of Article 21 of the league covenant, arguing that it was a "complete reversal" of the English text, both of which are official and bear the signatures of the American plenipotentiaries.

This difference, he said, "might very readily involve us in unhappy conflict." The English text says nothing in the covenant shall be deemed to affect the validity of understandings like the Monroe doctrine.

The French text, however, translated it literally, thus that understandings like the Monroe doctrine are not considered as incompatible with any of the provisions of the covenant.

\$900,000,000 IN GOLD BARS MOVED

ONE FARM'S GRAIN WORTH MILLION

Has 33,000 Acres; One 9,000 Acre Wheat Field

LETHBRIDGE, Alta.—An acre of grain is the estimated value of the grain crop at Nobleford Foundation farms at Nobleford twenty miles north of Lethbridge.

A single field of 9,000 acres or more than fifty square miles. More than 28,500 acres are under cultivation. Of this area 10,500 acres are in summer fallow awaiting next year's crop. This year 18,157 acres were in grain, 12,310 acres in wheat, 3,517 acres in rye, and 2,290 acres in oats. The estimated yield will be 307,350 bushels of wheat, 76,340 bushels of rye, and 137,400 bushels of oats.

C. S. Nohle is an American. He learned farming in Iowa and North Dakota. He started farming twenty years ago in Alberta on 320 acres. To-day he is the head of the greatest grain producing corporation in the world. His farms are working on a co-operative basis. All his old employees own stock and shares in the profits. Yearly dividends have run from 14 to 30 per cent.

Nohle attributes his success to hard work and a definite goal as a small farmer he made money he decided he could make a fortune by farming on a large scale. He moved to Canada because he regarded it as the poor man's last great agricultural opportunity. He invested his early profits in more land until a few years ago he had the biggest farm in Canada. Half of the land he farms to-day was raw prairie three years ago. He established a world's record in 1915 by averaging fifty-four bushels of wheat to the acre on a 1,000-acre field.

AUTO ACCIDENTS ON INCREASE

Kill One Person Every 35 Minutes in United States

CHICAGO.—With statistics showing that automobile accidents are killing men, women and children at an average of one every thirty-five minutes, the Ninth Annual Safety Council, at its sessions in Milwaukee September 27 to October 1, will devote much attention to this serious situation.

In St. Louis, Cleveland and other cities local councils of the National Safety Council have already reduced the number of automobile accidents by the united efforts of public officials, civic organizations and public spirited citizens, and it is planned to make the work nation-wide in scope.

S. J. Williams, secretary and chief engineer of the National Safety Council, is authority for the statement that three times as many are killed in all public accidents as in all industrial accidents, including railroads, mines, public utility construction work, etc., as well as factories. According to present indications and the experience of past years, the number of automobile fatalities in 1920 will be about two-thirds of all industrial fatalities. This situation is alarming enough without exaggeration. The most alarming feature of it is that, while industrial accidents have been decreasing, due to the increased safety work of the large industrial companies which are members of the National Safety Council, and while the public accidents on steam and electric railroads have been decreasing as a result of similar work, the number of automobile accidents has been increasing very rapidly.

AMNESIA CASE PUZZLES

CHELSEA, Mass.—An amnesia victim is locked in the local police station at his own request. "Who am I?" he asks, over and over again. He wears blue serge trousers, a green shirt and tan shoes; no coat. He has \$30 and a gold watch. He is of middle age.

WILL VOTE AT 93

NEWBURYPORT, Mass.—Mrs. Edna Allen, ninetythree, has just registered to vote in the coming primaries. Can a woman keep a secret? Well, Mrs. Allen is telling no one how she intends to vote.

GASOLINE MARKET

CINCINNATI.—Gasoline denatured \$1.67, gasoline tank wagon \$1.70 per cent 40.

SUGAR MARKET

NEW YORK.—Sugar future is closed easy; sales 1200 tons October 9.75, December 9.70, January 9.45; March 9.35; May 9.35

TOO TIRED TO SLEEP

Many people are unable to sleep because they are too tired. They have driven themselves so hard for so long that they are on the verge of a nervous breakdown. Night sounds excite them and silence depresses them. What little sleep they get does not refresh them and each day finds them a little weaker than the day before.

The first thing to realize in seeking relief from insomnia is that it is not a disease but a symptom. Narcotics will produce sleep but they will not remove the cause of sleeplessness. If the victim of insomnia is pale and losing weight and strength, and complains of headaches and indigestion, it is reasonably certain that the cause of the trouble is thin blood. The problem then is to find a blood-builder that is non-alcoholic, free from habit-forming drugs and is of proved worth. Such a remedy is Dr. Williams' Pink Pill. This tonic will supply the blood with the elements needed to build up the tissues, to repair waste, to revitalize the nerves and to strengthen the digestion. As new health and strength are carried to every part of the body it will be found that sleep becomes natural and that body and mind are invigorated by the rest.

Do not neglect yourself but begin treatment now with Dr. Williams' Pink Pill. If your druggist cannot supply you the remedy will be sent postpaid by the Dr. Williams Medicine Co., Schenectady, N. Y., on receipt of price, 65 cents per box. An interesting booklet, "Building Up the Blood," will be mailed free on request.—Adv.

Children Cry for Fletcher's Castoria.

A Message to Mothers

YOU know the real human doctors right around in your neighborhood—the doctors made of flesh and blood just like you; the doctors with souls and hearts; those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

Genuine Castoria always bears the signature of

Chas H. Fletcher

Children Cry for Fletcher's Castoria.

MEXICO RAILWAYS ARE WRECKED

Once Busy Torreon Line Has One Train Daily

By RALPH H. TURNER
TORREON, COAHUILA, MEXICO.—The run-down condition of Mexico's railroads probably is better illustrated in Torreon than in any other city of the Republic. In the heart of a wealthy agricultural and mining district, supporting smelters and various other industries, Torreon rightfully earned its position as one of the country's leading railroad centers.

But with the present depreciated condition of the Mexican railroads Torreon is not receiving just dividends from the network of rail lines that passes thru the city.

The conductor operating from Mexico City to Torreon threw light on the situation as his train neared this city five hours late. "Only one train a day," he exclaimed! "Leaves the capital on the northward trip to Ciudad Juarez, via Torreon. That might be sufficient if there were any local trains. But there are not. And there are scarcely any freight trains, either. As a result, everything possible is shipped by express and this train, the only passenger train on the line, must stop at every station to load or unload merchandise."

Ten years of revolution naturally have played havoc with the Mexican railroad system. Today it probably has reached its lowest ebb, congested with any functioning whatever. Cars have been destroyed by rebels and bandit faction, the sides have been torn from others to be used for firewood, bridges have been destroyed and hastily reconstructed and parts of the roadbed have been greatly damaged. In all this time long and proportionately large areas have been seen several times in the community during the last few days.

Work has been virtually abandoned in some sections and men armed with guns are searching for the monster. A car belonging to Robert Bishop is said to have been devoured by the snake and the entire community professed intense alarm.

Some residents advance the theory that the reptile escaped from a circus show. Others point to stories emanating from Sullivan and Green counties many miles distant, of serpent of similar proportions which is declared to have ditch "flivers" in encounters on the high ways. The Sullivan-Green county reptile was reported at wide separated points within a space of a few hours and it received much publicity—some of it more than half serious—in the newspapers.

Now the Dicaturites are wondering if this monster donned figure seven league boots and emigrated to this country.

DOUBLE APPLICATION FOR DIVORCE IS MADE

COLUMBUS, Ohio.—Double applications for divorce rarely originate in the same family.

Twins and double marriages happen more often.

Applications for divorces were filed on the same day by sisters, Miss Tamzon Libby Ford and Mrs. Gertrude L. Brown.

Both ask for restoration to their maiden name, Scrimger, and allege that their husbands deserted them and that they had to work for a livelihood after their wedding day.

FIRES CAUSE 29 DEATHS IN OHIO LAST MONTH

COLUMBUS.—Twenty-nine persons in Ohio died during August from injuries received in fires. Thirty-three were injured, according to the month's report compiled by State Fire Marshal William J. Leonard.

Causes of death are listed as follows: Lightning, 8; gasoline, 8; electric wires, 5; bonfires, 2; oil explosions, 2; steel furnace exploded, 1; heart disease superinduced by fire, 1; open fire, 1; open light fixture, 1; and playing with fire, 1.

Since January first 247 persons have been burned to death in Ohio, according to the report, and 396 have been injured by fire and fire causes.

In August last year only 14 persons were killed.

Ninety-five per cent of the accidents were preventable, the report says.

PULLS BOAT SWIMMING FEET AND HANDS TIED

YOUNGSTOWN, Ohio.—Could you pull a boat while swimming with your feet and hands tied?

"Jimmy" Lane, life guard at Lake Glacier, near here, did.

He did it with his teeth.

As a result, "Jimmy" holds a unique world's championship.

Not only did he swim Lake Glacier this way twice, but he swam Conneaut Lake, nearly two miles, in this manner with the remarkable speed of 45 minutes.

More than fifty lives were saved by "Jimmy" during his career as a lifeguard.

At the New York Water Carnival, in September, he expects to carry the colors of the Patriotic Club of Youngstown.

SHERIFF'S SALE

Case No. 19307

GI Y'D MIAMI Plaintiff. Page 19307

VIRGIN HASTINGS Defendant

By virtue of an order Ex parte issued

WATCHING THE SCOREBOARD CHANGE

Bob Shawkey set the Indians back 5 to 1 in the second game of the series with the Yanks.

The Babe hit his 49th off Caldwell in the first inning, scoring Pipp ahead of him.

The Robins needed four runs in the 11th to win from the Cards. Miller started with a double. A few more hits, a sacrifice and an error turned the trick.

McKechnie, Pirate shortstop with two doubles, a single and a stolen base, was the bright and shining light of Pittsburgh's 8 to 3 victory over the Phillies.

YOUNGSTERS FROM MINORS CUT

SENSATIONAL FIGURE IN BIG LEAGUE BALL

BY H. C. HAMILTON

NEW YORK.—Major league scouts who complain of the dearth of minor league material available for development into the big boys should look at some of the youngsters now holding regular berths with first class teams. That there is a shortage of material, if comparisons are made with former days of wholesale purchases from the minors, there is no doubt. But it also is sure that youngsters are coming along daily and are making records that are quite enviable.

No finer indication of this fact could be shown than that which is being flouted in the faces of down-trodden daily by the New York American League Club. The Yankees, who have made a great fight all season long for the American League pennant, have an abundance of new material which is helping them in their struggle for supremacy.

It is doubtful if Miller Huggins could have kept his men out in front had it not been for Aaron Ward's remarkable blossoming into one of the game's best third basemen. He has filled a spot admittedly the hardest on any club, and has done it with credit to himself in comparison with other third basemen.

Bob Meusel is spending his first year in a major league, yet he ranks among the game's greatest batters and has rolled up an average of better than .340 already. He socked a home run in Detroit the home of heavy sluggers for a decade, that was the longest clout ever seen in that park.

Tommy Ryan, one time middle-weight champion, is going out to California to spend the rest of his days. During the Frawley law days, Ryan conducted a boxing club at Syracuse, but he has no intention of opening again under the new boxing law. He says the boxers of today want all the money and that in most cases nothing is left for the promoters after he has paid the performers. Ryan intends to purchase a small ranch near Los Angeles.

The Pirates have unearthed a young one, named Frisch, third baseman, who bids fair to become the greatest third baseman who ever performed at the hot corner.

ond class
mail matter.

WHITHER ARE WE DRIFTING?

STRIES made in the art of saving and prolonging human life, the increase in preventatives and the advancement in science, noted in this city as well as in other centers of population, brings pertinently to the fore this question: Is modern medical science making the Darwinian law of the survival of the fittest a dead letter, or has the Darwinian law been only temporarily subverted so that it eventually will reassert itself, perhaps rather suddenly and violently?

This is a question which, while perhaps not important to this generation or the next, is nevertheless interesting from the standpoint of pure speculation. Malthus of old taught that population increases in geometric ratio, while the means of sustenance increases only in arithmetic ratio. The result of this, he predicted, would ultimately be famine, starvation and widespread epidemics.

If there was anything in the Malthusian doctrine when it was first given expression, there is much more to it now. Sanitation, preventative medicine, vaccines, wonderful advances in surgery—all these have availed much to keep alive on the earth countless thousands of souls who, in preceding generations, would have perished. Christianity, charity and philanthropy are protective of the weak. The ruthlessness of nature in the days when medicine was in a comparatively embryonic stage was, of course, marked; and while no one with any vestige of common sense would wish to hark back to those ages, still it is no doubt true that the natural weeding out of the weak and unfit in those rather primitive days was conducive to the development of hardy and vigorous descendants.

In this century, in spite of a few feeble attempts at an introduction of eugenics, literally hundreds of thousands of children are being brought into the world by parents who, in less sheltered times, would never have been able to withstand the physical ordeal. As we grow older in our civilizations, we develop greater immunity to disease, it is true, but at the same time it is perhaps just as true that we decline in natural strength and hardihood. The question is whether we can continue thus to turn the tables on the laws of nature, or whether, in the long run, our wonderful achievements in medical science will not eventually bring to a physical end the human race.

ENVIABLE RECORDS.

WITH the opening of the schools of Lima for the fall term, reference to the record of the Campbell sisters, Pera and Zenith, of Wapakoneta, the daughters of Dr. T. A. Campbell of the neighboring city, is timely and the accomplishment of these girls is worthy of emulation by Lima girls—and boys too.

The school attendance records of these girls has attained for them almost nationwide prominence. They are now students at the Defiance College. Thirteen years in school without missing a day is the record of Miss

Zenith, the younger. This includes eight years of grade school and four years of high school at Wapakoneta and also her freshman year at Defiance.

Dean Edward L. Lawson says that Miss Campbell is the only student out of 2,500 who have been enrolled at Defiance College in the last six years to complete a full year's work without missing a recitation. Miss Pera Campbell, a senior at Defiance College, has missed only nine out of more than 1,600 recitations during her three years college work. She also has a perfect record for high school attendance and both sisters have attained special recognition from state educational authorities for their exceptional punctuality.

These girls have perhaps attained a distinction for faithfulness in attendance at school that has no parallel, particularly the younger, who is determined to continue her unbroken record until the completion of her college education, if possible. To some persons, such a record may not appear to be extraordinary, but if the average student will recall the number of times they were absent from school or from recitation during their college career, they will be able to appreciate the fine record of the younger of these girls.

Illness, accident, interference by the elements, deaths of relatives or nothing of that kind occurred to prevent Miss Zenith Campbell from constant school attendance. She is proud of her unusual record and she has a right to be. Superintendent Collins of the Lima schools would be very glad to see to it that any Lima student with an equal record is given special mention.

BUSINESS MAN FOR PRESIDENT

AVING aside political preference for the moment, the thought occurs that this year, whether Cox or Harding be elected President, we shall have a business man for Chief Executive of the United States for the first time in the nation's history. Among the 27 different Presidents there have been representatives of many different callings, but most of them have been professional men and none has been a "business man" in the common sense of the term.

Either of the candidates named for this year can qualify as a business man, one who has had to make his own way in the business world under the common conditions of business life, a man who has worked for wages and who has employed labor, a man who has been required to meet a great variety of business problems. Furthermore, since each is a newspaper publisher and editor, we shall have a man who by reason of his calling has had to cultivate broad general knowledge of affairs and whose business success has been dependent upon the many sidedness of his sympathies and the safety of his judgment.

WHAT THE STARS PREDICT TODAY

The stars are friendly today. It is a lucky rule for all business ventures.

The evening hours of this day should be most fortunate for all social affairs.

Again the stars warn of coming war and there is an indication of the movement of troops under this rule.

Persons whose birthday this is will have a year of travel and change.

Children born today will be clever and talented and have adventurous lives.

WATER POWER TO BE DEVELOPED

Federal Commission Plans System For Nation

WASHINGTON.—Developing of the vast water power reserves of the United States will begin within the next year if the plans outlined by the Federal Water Power Commission and the representatives of the corporations, planning to take up the task who met here in conference, are fulfilled.

The Water Power Commission has received more than a score of applications from all parts of the country for consideration of specific projects as soon as regulations can be formulated for the granting of water power licenses to carry into effect the provisions of the water power legislation signed by the president following the close of the last session of Congress.

Fears of persons interested in the water power development that the Government would levy heavy charges for the development of power have been dispelled by the provisions of the legislation and the attitude of the commission.

Water right charges in several States already have been determined. In others action must be taken. In the development plans, already outlined to the commission, in only one case at hand, today has a municipality applied for water power development permission. This application came from the city of Buffalo, N. Y. In practically every case brought to attention of the commission large interests are taking on the task.

O. C. Merrill, of the Interior Department, executive secretary of the commission, said the details of the applications will be announced by the commission later. Nothing will be done on individual cases, however, until the general plans for granting licenses are completed.

Water right charges in several States already have been determined. In others action must be taken. In the development plans, already outlined to the commission, in only one case at hand, today has a municipality applied for water power development permission. This application came from the city of Buffalo, N. Y. In practically every case brought to attention of the commission large interests are taking on the task.

LAMP SOCKETS AND HOUSEHOLD APPLIANCES

The Society for Electrical Development called the attention of manufacturers of electrical supplies to the desirability of obliterating the impression in the minds of users that any number of household devices can be attached to one lamp socket by the mere use of branch sockets. This is a desirable move. Lamp sockets are made for a purpose, and were in general use before electric ranges, bathtubs, washing machines and vacuum cleaners were thought of for household purposes. Having been designed to accommodate incandescent globes, and possibly, electric lamps, like the window fixtures in many houses, were not intended to be used for supplying large drafts of energy. Even the wiring system in a modern home is not always arranged for the purpose of delivering from one socket the power needed to operate all of the appliances used by the household.

Although these observations may seem superfluous to the electrically trained man, they are nevertheless important. Common sense, he argues, should restrain any housewife from attaching a washing machine and bathtubs to one socket. And, if she should attempt to operate this combination, the only damage that would result would be a blown fuse. This argument is faulty, however, because it neglects the moral attitude of the householder. Besides irritating some person's nature, the

SECTION FOREMAN LEFT MILLION DOLLAR ESTATE

BLACKWELL, Okla.—It is not often that a section foreman falls heir to a million dollars, but this is what happened to James Yarbrough, foreman of a section of the St. Louis and San Francisco Railroad here for many years. The money came from his aunt, Mrs. Polyanna Chilvers, of Long Beach, California.

Yarbrough declares his hobby has always been a good section foreman and that he intends to adopt a bunch of boys whom he will train to become section foremen. He will start a school that will turn out foremen.

improper performance of any piece of domestic electrical apparatus causes her to wonder whether or not it is wise to add any more apparatus to her already improperly performing equipment and trouble her tortured mind. The wondering person hesitates, the dissatisfied person criticizes the equipment, purchases diminish, central stations lose business, and what is more regrettable than all else, the homes are deprived of the full measure of usefulness of those devices which industry has contrived for the purpose of making domestic life pleasant. All of this is because the user of electric household devices has not been told how to use them.

There are, of course, boundless books and treatises on wiring rules and formulas that are available for anyone who can read. But one should remember that a book treatment of electrical phenomena is about as comprehensible to the technically untrained person as a tablet of Egyptian hieroglyphics. Rules and formulas are of no value if no means of interpreting them exist. There is no use to tell a housewife that a lamp socket will deliver a certain number of power units safely. That means nothing to her. She might and probably would understand the limitations of the fixtures, however, if she were told that the lamp socket would, with safety, supply power for only one flatiron, one fan, or one vacuum cleaner. This is a message that she hasn't received so far. There is no question that the expense involved in delivering it to her would be incurred advantageously to the entire industry.

HUNTING FOR STILLS; DIGS UP \$248 CASH

AMERICUS, Ga.—Digging in the ground near the Miller plantation, near Pio, Ga., in search of an old still, Sheriff C. M. Christian, of Webster County, recently unearthed a sealed glass fruit jar containing silver dollars, halves, quarters, dimes and nickels totaling \$284.25.

Recently the sheriff found a stills outfit, including a copper worm, a negro living in a house on the plantation where a small quantity of liquor was found, was arrested and taken to Pio, but as yet no one has claimed the jar containing the buried money.

Exide Battery Is Of High Quality

Beckman Electric Service Station
Is Local Agents for this
System

The Exide battery for auto lighting and starting is known throughout the world as a real quality product. Inside and out from plate to case it is known to be made right and has been proved in thousands of cases to be right by the long years of service and performance. It is always sold on the basis of low maintenance cost rather than low first cost.

Price is always to be found a very attractive feature about a battery or for that matter any other article on the general market. Price is one thing and value is another. It is not what you pay for an article but what you get for what money you did spend that determines your satisfaction.

Take a starting and lighting battery for example. A poorly built battery can be sold for a low price while a well built battery must necessarily command a higher price. But the better battery more powerful, more durable, free from operating expense and trouble and giving greater general satisfaction throughout its whole period of service will more than justify its higher original cost.

Wherever the Exide battery service sign is to be found car owners will find complete facilities for the handling of all their battery needs. Whether it is a simple battery test or a question of extensive battery repairs the same prompt and courteous attention prevails. There's no requirement of the starting battery too small or too large that cannot be cared for in the right way at the Beckman Electrical Service Station at the corner of Spring and Central Avenue. Nor is the service confined merely to Exide batteries but in a general service which knows no exception.

The Beckman Electrical station is the agency for Exide Batteries, Teleo, Remy Westinghouse, Simms-Huff Starters, Atwater Kent, Teatification; Bosch, Spaldorf, Dixie, Shamus Magnets; Klaxon Horns; Timm Hyatt New Departure Bearings. No service station in Lima is as well equipped to take care of all the needs of autists as far as electrical equipment and parts are concerned.

LIMA LEADS

Visitors in Lima this week during the Elks' Convention were loud in their praise of Lima and were surprised at the varied products manufactured here and the activity in the business section.

They said Lima is a city to be proud of and it is.
